POST COVID, THE DEMAND *for* RETAIL *and* OFFICE SPACES IS EXPECTED TO UNDERGO *a* CHANGE.

There will be a preference for common spaces that are open to the sky and have independent access to shops and showrooms.

The shops and showrooms would have their own air-conditioning, which would minimise common area maintenance charges.

Shopping complexes on the lines of Khan Market in New Delhi or Chandigarh-styled markets comprising SCOs would be preferred.

SCO-style strip malls and outlet centres in the suburbs with high-street shopping in the city will gain prominence over large format centrally air-conditioned malls.

In these newer formats, offices will find a new playful destination to flourish and retail would be centred more around food service, wellness, leisure and entertainment.

SCOs are likely to fetch higher rental yield in comparison to the returns from residential property.
